2017

TOOLS

EXPERIENCE

Freelance Designer & Illustrator | Feb 2020 - Present

- Collaborate with clients to identify their brand and create a logo that represents their mission
- Iteratively revise and render logos using Adobe Illustrator
- Design and prototype websites using Figma
- Develop static websites with HTML, CSS, and Hugo
- Manage website version control and deployment using Git and Github
- Create digital character illustrations for clients' personal use

Graphic Designer | Chabot Graphic Design Studio | Jan - May 2021

- Directed and organized projects by interviewing clients to determine their project's goal
- Collaboratively explored ideas with a team of designers and created a cohesive brand message
- Designed graphic materials such as logos, flyers, and brochures using Adobe Illustrator, InDesign, and Photoshop as part of a team

SKILLS

- **Sketching + Wireframing:** Quickly iterate design concepts
- **Branding:** Create cohesive brand identities and guidelines for consistency
- **Editorial design:** Design layouts for print materials, such as brochures, flyers, and booklets
- **UI/UX:** Craft engaging digital experiences with intuitive user interfaces and user experiences
- **Illustration:** Create impactful illustrations for both print and digital media
- **Languages:** English, Spanish

INTERESTS

- **Programming:** Problem solving and automating tasks
- **Reading:** Exploring new ideas through fiction and non-fiction literature
